**NOTICE OF PROPOSED RULE MAKING**

**Adopted: March 12, 2003**

**Released March 14, 2003**

**Comment Date: May 5, 2003**

**Reply Comment Date: May 20, 2003**

By the Assistant Chief, Audio Division:

1. The Audio Division has before it a petition for rule making **filed** by Tsunami Communications, Inc. ("TCI"), licensee of Station KTCL, Channel 227C, Ft. Collins, Colorado. TCI requests the substitution of Channel 227C0 for Channel 227C at Ft. Collins, Colorado, reallocation of Channel 227C0 to Wheat Ridge, Colorado, and modification **of** the license for Station KTCL to specify Wheat Ridge **as** its community of license. TCI also requests the substitution of Channel 249A for vacant Channel 227A at Westcliffe, Colorado. TCI states that if the Commission grants its request, TCI will file an application for Channel 227C0 at Wheat Ridge.

2. TCI seeks to invoke the provisions of Section 1.420(i) of the Commission's Rules which permits the modification of a station's authorization to specify a new community of license without affording other interested parties an opportunity to file competing expressions of interest.<sup>1</sup> In support of its proposal, TCI states that the proposed use of Channel 227C0 at Wheat Ridge is mutually exclusive with Station KTCL's existing authorization at Ft. Collins. TCI further states that the adoption of its proposal will result in a preferential arrangement of allotments consistent with the *FM Allotment Priorities*,<sup>2</sup> by providing Wheat Ridge, Colorado, (population of 32,913),<sup>3</sup> with its first local aural transmission service. The allotment of Channel 227C0 to Wheat Ridge would not deprive Ft. Collins (population of 118,652) of its sole local transmission outlet, because Ft. Collins would retain local service from Stations KPAW, KCSU, and **KIIX(AM)**. TCI provided information showing community status for **Wheat Ridge**, explaining **that Ft.** Collins is the central city in the Ft. Collins Urbanized Area while Wheat Ridge is located in the Denver Urbanized Area. Thus, Station KTCL is not relocating from a rural **to** an urban area as the station **is** already

<sup>1</sup> See *Modification of FM and TV Authorizations to Specify a New Community of License*, 4 FCC Rcd 4870 (1989), *recon. granted in part*, 5 FCC Rcd 7094 (1990).

<sup>2</sup> See *Revision of FM Assignment Policies and Procedures* ("FM Allotment Priorities"), 90 FCC 2d 88 (1982). The allotment priorities are: (1) first full-time aural service; (2) second full-time aural service; (3) first local service and (4) other public interest matters [co-equal weight is given to priorities (2) and (3)].

<sup>3</sup> Population figures reported herein were taken **from** the 2000 U.S. Census

located in an urban area. TCI states that KTCL's current 70 dBu contour already covers 100% of the Ft. Collins and Bolder Urbanized **Areas** and more than 50% of the Denver Urbanized Area. Nevertheless, TCI is providing a showing that Wheat Ridge is independent of Denver under the factors set forth in *Fuye and Richard Tuck*.<sup>4</sup> TCI states that there are currently 2,798,869 people within the KTCL 60 dBu contour. There will be 2,644,106 people within the 60 dBu contour of Station KTCL, Channel 227C0, at Wheat Ridge and that 2,481,749 people currently residing within the KTCL **60** dBu contour will continue to be served by the station. TCI states that, using the Flat Earth Model generally accepted by the Commission, 317,120 people will lose service while 162,357 people will gain new service within the proposed KTCL contour. TCI further states that due to the severe mountainous terrain around both the present and proposed transmitting sites, a second analysis was performed using the Longley-Rice method, which shows 21,166 people will lose service while 67,146 people will gain a new service for a net gain of 43,980 people.

3. Since TCI's reallocation request is consistent with the provisions of Section 1.420(i) of the Commission's Rules, we shall propose to modify the authorization of Station KTCL without entertaining competing expressions of interest in the use of Channel 227C0 at Wheat Ridge, Colorado. Channel 227C0 can be allotted to Wheat Ridge, Colorado, consistent with the technical requirements of the Commission's Rules at TCI's specified site, utilizing coordinates 39-40-18 and 105-07-32. This site is 11.3 kilometers (7.0 miles) south of the community. To accommodate the allotment at Wheat Ridge we shall also propose the substitution of Channel 249A for vacant Channel 227A at Westcliffe, Colorado, at coordinates 38-03-21 and 105-30-02. There is a site restriction 9.3 kilometers (5.8 miles) south of Westcliffe.
